Subject: Wilderness Survival - Winter - Thank You

Dr. Ferri,

I hope your week is going well. I wanted to pass on a quick note to you directly to thank you and your company for an extremely valuable learning experience and in particular absolutely underscore how much of an amazing teacher and person Jennifer really is. I was sincerely impressed by her knowledge and ability to communicate the material. In any case, I find it difficult to imagine a better person than Jennifer to help build an organization such as Survival in the Bush Inc. and I trust you must have similar thoughts!

Again, please accept my thanks and you can bet that I will be back for additional sessions. In addition, as I briefly mentioned to Jennifer I will be organizing a group from the Canadian Space Agency and corresponding with you (in the short term) regarding additional training opportunities - there is considerable interest.

Looking forward to getting a chance to meet you in person Dr. Ferri, take care until then,

Matt B.  
Canadian Space Agency
